Subject: FW: AIR MILES certification guide and NCR transaction file

Dear GIS/ORION users:

As per our recent communication to you regarding NCR termination effective September 1, 2010 (with an extension if required until March 31, 2011), please find below the AIR MILES sponsor certification guidelines to submit your AIR MILES submissions in the same manner as NCR was doing on your behalf.

For ORION users – you will need to discuss and make a decision with ORION soon.

GIS, please review and let us know ASAP if you can submit as per NCR and AIR MILES certification requirements attached.

If someone from both ORION and GIS can get back to me after testing with AIR MILES is complete that all has gone well.

Can everyone agree that we will have an answer by say end of July 2010?

Thx
 Anna

Hi Anna,

As per our conversation attached is the AIR MILES certification guide that will provide you with all the information on file creation, data parameters, specifications of the flat file, data transmission methods etc. I have also attached an NCR file that has some of your transactions on it. The details of the header record may vary slightly as I have deleted other sponsor's data that has been sent on this file (as NCR sends us a combined file for all our sponsors they provide data for). This will give your IT team an idea of what the file looks like that NCR sends to us and if it's close to what is being sent to NCR from the two different applications that are currently being used at your franchisee locations.

If there are any questions, please do not hesitate to contact me directly.

Regards
 Adrian
