Tony

The IT team is working on the HST. The program will caculate based on the rule of HST. The user does not need to make any changes from the front end.

Anna Edward is aware of the HST change and it will be change automatically.

If you like, you can send an update to the Update department to have your locations change.

Thanks

Nora.

**Nora:**

**Can you update me on the HST that will start on July 1.**

**Do we need to do anything ourselves?**

**What do we need to do on the rates that we have set in GIS that are tax or taxes exempted?**

**On various types of LDW, PAI, PEC, Deductible BuyDown, do we need to do any change from the front end?**

**I know you are very busy but I just need to plan to ensure all calculation will be done correctly.**

**In addition, will be need to update Wizard or they will make change automatically?**

**Thanks!**
